

METAVEST WHITEPAPER

Version 1.0

Building the Future of Decentralized Digital Asset Ecosystem

1. Executive Summary

METAVEST is a next-generation Web3 ecosystem designed to create an integrated platform where blockchain technology, decentralized finance (DeFi), staking, digital assets, NFT marketplace, and future decentralized applications work together within a single ecosystem.

At the center of the ecosystem is **METTA**, the native utility token that powers transactions, governance, rewards, marketplace payments, and ecosystem incentives.

Our vision is to create a transparent, secure, scalable, and community-driven blockchain ecosystem accessible to everyone.

2. Vision

To become one of the leading decentralized ecosystems that connects users, developers, investors, and businesses through blockchain technology.

3. Mission

- Build a secure blockchain ecosystem.
 - Create sustainable token economics.
 - Encourage community participation.
 - Develop useful Web3 applications.
 - Deliver long-term value to METTA holders.
-

4. Ecosystem

The METAVEST ecosystem consists of multiple integrated products.

METTA Token

The native utility token of the ecosystem.

Staking Platform

Users can stake METTA to earn passive rewards.

NFT Marketplace

Buy, sell, and trade digital collectibles.

Governance

Token holders can participate in ecosystem decisions.

Launchpad

Support new blockchain projects through decentralized fundraising.

Future dApps

Additional decentralized applications will continue to expand the ecosystem.

5. METTA Token Utility

METTA serves as the primary utility token for:

- Transaction Fees
 - Staking Rewards
 - Governance Voting
 - Marketplace Payments
 - Premium Membership
 - Launchpad Participation
 - Community Rewards
 - Ecosystem Incentives
-

6. Token Information

Item	Value
Token Name	METAVEST
Symbol	METTA
Network	BNB Smart Chain (BEP20)
Decimals	18
Total Supply	100,000,000 METTA

7. Tokenomics

Allocation	Percentage
Liquidity Pool	30%
Staking Rewards	25%
Ecosystem Development	20%
Marketing	10%
Team	10%
Reserve	5%

8. Staking

Users may lock METTA tokens to receive staking rewards.

Benefits include:

- Passive income
 - Long-term ecosystem participation
 - Reduced circulating supply
 - Community incentives
-

9. Governance

METTA holders will gradually receive governance rights.

Governance proposals may include:

- Ecosystem upgrades
 - New product launches
 - Treasury allocation
 - Community funding
 - Partnership approval
-

10. Security

METAVEST prioritizes security through:

- Smart contract audits
 - Multi-signature treasury
 - Secure infrastructure
 - Continuous monitoring
 - Community transparency
-

11. Roadmap

Phase 1

- Project Planning
- Branding
- Website
- Smart Contract
- Whitepaper

Phase 2

- Token Launch
- DEX Listing
- Community Growth
- Staking Platform
- CoinMarketCap
- CoinGecko

Phase 3

- NFT Marketplace
- Launchpad
- Swap Platform
- Mobile Application
- Governance

Phase 4

- DAO
 - Cross-chain Integration
 - Global Partnership
 - Metaverse
 - Enterprise Solutions
-

12. Long-Term Goals

The long-term objective is to build a complete decentralized ecosystem where METTA becomes the primary utility token for:

- Digital Assets
 - Payments
 - Staking
 - DeFi
 - NFT
 - Marketplace
 - Web3 Applications
 - Enterprise Integration
-

13. Risk Disclosure

Digital assets involve significant risks, including market volatility, regulatory changes, smart contract vulnerabilities, and technological uncertainty.

Participants should conduct their own research (DYOR) before purchasing METTA tokens.

14. Disclaimer

This whitepaper is for informational purposes only and does not constitute financial, legal, or investment advice. Nothing contained herein should be interpreted as an offer to sell securities or financial products.

The METAVEST team reserves the right to modify the roadmap, tokenomics, products, or technical implementation as necessary to support the long-term sustainability of the ecosystem.
